DETAILED ACTION

EXAMINER'S AMENDMENT

EX. Amdt.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel S. Glueck on 12/15/03.

The application has been amended as follows:

IN THE LAIMS:

Have canceled non-elected claims 13-17. ✓

It is also noticed that claim 17 is a method claim and is restricted as being directed to a method of sequentially performing projection exposure of device patterns in a pattern effective area of a photo-mask onto shot area of a wafer, wherein the method does not require a wafer stage moving a wafer in one of a mask scanning direction and a direction opposite to the mask scanning direction.

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: an exposure apparatus for sequentially performing projection exposure of device patterns in a pattern effective area of a photo-mask onto shot area of a wafer, the apparatus including:

an illumination unit for collectively illuminating the entire pattern effective area of the photo-mask with exposure light, wherein the photo-mask is contained within the illumination range of the illumination unit.

Neither of the prior art of the record teaches or suggests *an illumination unit collectively exposing an entire pattern effective area of a photo-mask.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
